Software Engineer with over 2 years of expertise in full-stack development using Java, Spring Boot, JavaScript, and React, .Net. Proven track record in enhancing user experiences, improving project efficiency, and leading technical teams. Recognized for problem-solving skills and continuous learning. Passionate about web development and innovative software solutions.

Skills

- Java | Spring boot | .NET Core | **JavaScript** | SQL Server | MySQL | Nodejs | React | jQuery | TFS | Git | Angular | HTML5 | CSS3 | Bootstrap
- **OOPS** | Web Development | Redis | Problem solving | Continuous learning | Learning cloud computing | Software Development
- Product design sense | Eager to learn | Collaborative | Independent worker | Leadership and ownership
- Frontend | Backend | Full-Stack
- Learning AWS and Docker | Containerization

Experience

Software Engineer Mastek Mahape, Mumbai, India **02/2023 - Current**

- Led product and design discussions to enhance and implement new features, improving overall project efficiency by **15%**.
- Acknowledged for contributions in creating **REST API**, JavaScript, **HTML**, and **CSS** development for **UK Healthcare**.
- **Innovated** and implemented a user-friendly feature, enhancing user experience by **25%**.
- Delivered multiple live features, actively used by end-users in the UK.
- Participated in code reviews and continuous improvement initiatives.
- **Led a team of 6** in upgrading the project to a newer **Bootstrap** version on frontend, showcasing **leadership** and **technical** expertise.

Trainee Software Engineer Mastek Mahape, Mumbai, India **04/2022 - 01/2023**

- Contributed to the **UK Ecommerce** Project with **ReactJS** frontend and **Spring Boot** backend.
- Enhanced **user interfaces** for a seamless and visually appealing **shopping experience**.
- Developed and maintained **Rest APIs** using Spring Boot and Spring JPA.
- Designed and implemented the layout of the products page, improving user experience by **5%**.

Education

Bachelor of Science Rizvi College of Arts, Science and Commerce **06/2017 - 10/2020**

- Information Technology (IT)

Open Source Contribution

- **Brief Me** : I contributed in frontend, in Reactjs by adding **validation** and made a work around the UI and implementation logic. **(05/2024)**

Achievements

- **GEM True Champion**: Recognized for **resolving complex** technical issues. **(06/2024)**
- **Bright Spark**: Appreciated for contribution to platform upgrade. **(06/2024)**
- **True Champion**: Acknowledged for learning all service lines quickly. **(06/2023)**
- **Problem Solver** (Leetcode): Successfully tackled **500+** coding problems, ranked among **top 19%** globally. **(07/2024)**

Side Projects

OTT Website

- Designed and developed a **Netflix website** clone using **Angular**, incorporating **third-party Rest APIs** for movie data retrieval.
- Demonstrated front-end development skills by building the website from scratch.

Social media and E-commerce Website

- Successfully recreated the user interface of **Instagram** using React, gaining valuable hands-on experience with React concepts.
- Developed full stack E-commerce website using Angular, .Net Core and SQL Server added **search, shopping-cart and Wishlist**.
