Software Engineer with over 2.5 years of expertise in full-stack development using Java, Spring Boot, JavaScript, and React. Proven track record in enhancing user experiences, improving project efficiency, and leading technical teams. Recognized for problem-solving skills and continuous learning. Passionate about web development and innovative software solutions.

Skills

- Java | Spring boot | JavaScript | SQL Server | MySQL | Nodejs | React | jQuery | TFS | Git | Angular | HTML5 | CSS3 | Bootstrap | Maven
- OOPS** | Web Development | Redis | Problem solving | Continuous learning | Learning cloud computing | Software Development
- Product design sense | Eager to learn | Collaborative | Independent worker | Leadership and ownership
- Frontend | Backend | Full-Stack
- Learning AWS | Kubernetes basic | Containerization | Knowledge of Microservice architecture too.

Experience

Software Engineer	<u>Mastek</u>	<i>Mahape, Mumbai, India</i>	02/2023 - Current
- Spearheaded the development and optimization of Restful APIs using Spring Boot, leading to a 15% improvement in performance by integrating Projection Interface, DTO, and JPQL, JPA. - Acknowledged for contributions in creating java Spring Boot Rest API, JavaScript, HTML, and CSS in React development for UK Healthcare. Innovated and implemented a user-friendly feature, enhancing user experience by 25%. - Delivered multiple live features, actively used by end-users in the UK. - Participated in code reviews and continuous improvement initiatives. Led a team of 6 in upgrading the project to a newer Bootstrap version, showcasing leadership and technical expertise.			
Trainee Software Engineer	<u>Mastek</u>	<i>Mahape, Mumbai, India</i>	04/2022 - 01/2023
- Contributed to the UK Ecommerce Project with ReactJS frontend and Spring Boot backend. - Enhanced user interfaces for a seamless and visually appealing shopping experience. - Developed and maintained Rest APIs using Spring Boot and Spring JPA. - Designed and implemented the layout of the products page, improving user experience by 5%.			

Education

Graduation	<u>Rizvi College of Arts, Science and Commerce</u>	06/2017 - 10/2020
Bachelor of Science in Information Technology (IT)		

Open Source Contribution

Brief Me : I contributed in frontend, in Reactjs by adding **validation** and made a work around the UI and implementation logic.

Achievements

- GEM True Champion**: Recognized for **resolving complex** technical issues
- Bright Spark**: Appreciated for contribution to platform upgrade
- True Champion**: Acknowledged for learning all service lines quickly
- Problem Solver** (Leetcode): Successfully tackled **500+** coding problems, ranked among **top 16%** globally.

Side Projects

OTT Website
- Designed and developed a Netflix website clone using Angular, incorporating third-party Rest APIs for movie data retrieval. - Demonstrated front-end development skills by building the website from scratch.
Social media and E-commerce Website
- Successfully recreated the user interface of Instagram using React, gaining valuable hands-on experience with React concepts. - Developed full stack E-commerce website using Angular, .Net Core and SQL Server added search, shopping-cart and wishlist.
Multi-Container application (Docker)
- Containerized a Spring Boot and React application using Docker, demonstrating practical skills in containerization. - Used MySQL from Docker Hub as the database, gaining experience with Docker Compose for managing multi-container environments.
